In 2023, Fairtrade sales generated from Booker supported producing communities across 13 countries, this has increased by almost **15%** since 2022.

## CASE STUDY

### Mungania Tea Factory supporting their local communities

#### School Washroom Block -

They have constructed a new washroom block for the boys at the secondary school. This upgrade provides better facilities and reduces the need for sharing. This significantly improves the hygiene and comfort for students.

#### School Kitchens -

They have built a modern kitchen for the secondary school, replacing the previous one that consumed lot of firewood and was very smoky. This upgrade has reduced costs, shortened cooking times and significantly improved the health of the cooks by preventing chest issues.

## TEA

- Booker Fairtrade tea is sourced from Fairtrade certified producers in six different countries, including Kenya, Malawi and India. Producers within the Booker supply chain used 20% of Fairtrade Premium for projects related to education and child welfare.
